ABOUT YOUR ICESTONE SURFACE

IceStone is manufactured without any petrochemicals or resins, making it an environmentally responsible choice for countertops in the home or office. Care of IceStone is similar to that of natural stone. Like all surfaces, IceStone will show signs of wear and tear over time. With sensible care, you can maintain the beauty and quality of your IceStone surface.

CARING FOR YOUR ICESTONE

GENERAL CLEANING

Use the products recommended in these guidelines. Cleaning products should be free of chlorine bleach, ammonia, acid and citrus scents.

WIPE UP SPILLS

Be especially attentive to spills such as coffee, wine, fruit juices and other acidic liquids, wiping them up promptly with a damp cloth and water.

USE TRIVETS AND CUTTING BOARDS

Place a tray under coffee machines, soap, and soap dispensers—as with all surfaces, use trivets and cutting boards to help protect the sealer and the surface.

PROTECT YOUR SURFACE

IceStone is very dense, but still porous, so surfaces must be sealed. IceStone requires that the fabricator seals before or at the time of installation.

A typical IceStone installation requires annual resealing. To determine if it is time to reseal your IceStone, dab a cotton ball in water and evenly wipe the surface in a straight line.

Sealing is simple! While you can certainly call in a professional, most homeowners opt to do it themselves. We have made it even easier by providing a video tutorial on sealing on the IceStone YouTube channel:

www.youtube.com/user/IceStoneLLC

You can apply CHENG® Concrete Countertop Wax after sealing for added protection.
RECOMMENDED PRODUCTS
You can purchase recommended products at our web store at www.icestoneusa.com

* Using products other than those recommended on IceStone can result in less than optimal performance of the material.

CLEANERS
Seventh Generation® All-Purpose Cleaner | Free & Clear
Method® All-Purpose Natural Surface Cleaner | Lavender
Method® Daily Granite Cleaner

SEALERS
IceStone recommends StoneTech® Bulletproof®, a high-performance water-based sealant. If your IceStone surface was sealed with a solvent-based product, we recommend Tenax® Protex when resealing.

REPAIRS
REMOVING TOUGH STAINS
Staining is caused by liquids that have penetrated and discolored the surface. Most stains can be removed by using a poultice. Refer to our video illustrating stain removal on our YouTube channel: www.youtube.com/user/IceStoneLLC

REMOVING SURFACE MARKS/ETCHING
Etching is caused by acidic liquids that have discolored, dulled, and/or eroded the surface.

If etching occurs, contact IceStone Customer Service: customerservice@icestoneusa.com

WARRANTY
IceStone offers a Residential and Commercial 10-year Limited Warranty for installations that are fabricated and installed by an IceStone Certified Fabricator. Register your warranty on our website and receive e-mail reminders about maintaining your IceStone.

CONTACT US
