

# LEED v4 CREDIT SUMMARY

LEED (Leadership in Energy and Environmental Design) is an internationally recognized, third-party certification program developed by the USGBC to evaluate the construction and operation of high performance green buildings and communities. LEED Certification applies to buildings, not products. There are different types of LEED rating systems, and all are continuously refined. You can check the latest versions at the [USGBC website](#). IceStone® surfaces have helped many projects obtain LEED credits over the years. IceStone is made from 100% recycled glass, Portland cement, and non-toxic pigments.

## ICESTONE SURFACES CAN CONTRIBUTE TO THE FOLLOWING CREDITS:

CREDIT NAME	POINTS	PRODUCT CONTRIBUTION
MR CREDIT: Building Product Disclosure & Optimization- Sourcing of Raw materials	Option 2: Leadership Extraction Practices (1 point)	IceStone surfaces contain approximately 75% recycled content by weight. Pre/Post-Consumer recycled content varies by color; find breakdown in the chart below.
MR CREDIT: Building Product Disclosure & Optimization- Material Ingredients	Option 1: Material Ingredient Reporting (1 point)	IceStone surfaces have a published Health Product Declaration® with full disclosure of known hazards in compliance with the Health Product Declaration® open standard.

IceStone Color	Pre-Consumer Content	Post-Consumer Content
Alpine White	74%	0%
Amber Pearl	66.2%	7.8%
Cobalt Ice	74%	0%
Denim Moss	39%	34%
Fogbound	74%	0%
Forest Fern	74%	0%
Gotham Grey	66%	8%
Latte	74%	0%
Moroccan Red	39%	34%
Pearl Grey	71%	3%
Sage Pearl	69.8%	5.2%
Sapphire Snow	69%	3%
Sky Pearl	57.8%	16.2%
Snow Flurry	74%	0%
Tuscan Sunset	63%	11%
White Pearl	66.2%	7.85%
Marine Pearl	69.8%	5.2%
Sea Breeze	74%	0%

Note: We do our best to keep this information current and correct. Occasionally, percentages of Pre- and Post- consumer recycled content could shift based on availability and product quality. Percentages are based on weight.
